

## Strong and self draining

1 or 2 children

# autovideur **Optimist**

### The architect's point of view

*"Whilst respecting the bottom of the hull of the original Optimist with which young sailors have won numerous titles, we created some 10 years ago, a new model, more accommodating and safer. Hundreds of this model are currently sailing in sailing schools proving the success of this boat".*

### Strong and self draining

Comfortably sitting on the anti-skid banks the children are ready to discover the sea. Both strong and comfortable, the self-draining OPTIMIST PHILEAS is specially adapted to learning in sailing schools.

#### TECHNICAL SPECIFICATIONS

Hull weight : 39 kg  
Length : 2,33 m  
Width : 1,13 m  
Sail area : 3,60 m<sup>2</sup>

Self-draining accommodating cockpit  
Transom bow protected by bumpers.
